11. **Intended purpose of funding:** To purchase a Smart Television and a Heavy Duty Cantilever wall mount. his investment is a significant step towards bolstering our commitment to our members' health and safety. Visual learning through dedicated health and safety videos offers a dynamic and easily digestible way for men to understand potential hazards and proper equipment operation. These videos will clearly demonstrate step-by-step procedures, highlight critical safety features, and visually reinforce best practices, catering to different learning styles more effectively than verbal instructions alone. The Shed will also have the ability to address the mental well-being of our members by presenting and discussing mental health videos. This proactive approach to health and safety education will contribute to a more confident and secure environment within the shed, minimizing the risk of accidents and promoting a culture of health and safety awareness among all members.

## Summary of activities

During the past 12 months to June 2024, Scouts NSW had 14,054 members. Scouts NSW has delivered the Scout program to 10,940 Youth members aged from 5 to 25 years of age, with support from 4,498 adult volunteer Leaders and supporting members, with the support of a small number of professional employed staff. Scouts NSW is open to boys and girls of all cultures and diverse backgrounds. The mission of Scouting is to contribute to the education of young people, through a value system based on the Scout promise and law, to help build a better world where people are self-fulfilled as individuals and play a constructive role in society. We achieve this by involving young people through their formative years in a non-formal educational process, using the Scout method that makes each individual the principle agent in their own development as a self-reliant, supportive, responsible and committed person, and assisting them to establish a value system based on social, personal and spiritual principles as expressed through the Scout promise and law. Our fun, adventurous, outdoor activities are enjoyable, and community based, encourage a learning by doing approach to enable our youth members to take responsible risks, reach new heights, and develop leadership and teamwork skills whilst providing skills and friendships for life. Accredited training is provided to Leaders to support the Scout program. Income to deliver the Scout program is generated by membership fees, fundraising, government grants and investment income.

10. **Incorporated Entity:**
11. **Intended purpose of funding:** o purchase a Lego Spike Prime Robot Kit, and additional sensors, as required. This kit has the basic pieces which can be used to build a robot. Rationale: The FIRST Lego League Robotic Challenge is a global event, with 10,000's teams participating each year. My colleague, Geoff Broadbent, and I founded the first team in 2020. Some previous team members are now studying Mechatronics at UNSW. Our current team has an average age of 11 and participated in the National Competition in their first year (2024). Each team we have mentored apply their STEM skills combined with critical thinking to build a robot, and compete in an exciting, mission-based robotics game. They also develop skills such as: teamwork, inclusion, research, presentation, problem-solving and coding. The current Kyle Bay/Mortdale Scout Lego Robotics Team is larger than previous years (8 scouts), so the purchase of a second robotic kit will mean the team can learn and make progress at a much faster rate. <https://www.youtube.com/watch?v=4JV7x014U0I>

## Summary of activities

During the past 12 months to June 2024, Scouts NSW had 14,054 members. Scouts NSW has delivered the Scout program to 10,940 Youth members aged from 5 to 25 years of age, with support from 4,498 adult volunteer Leaders and supporting members, with the support of a small number of professional employed staff. Scouts NSW is open to boys and girls of all cultures and diverse backgrounds. The mission of Scouting is to contribute to the education of young people, through a value system based on the Scout promise and law, to help build a better world where people are self-fulfilled as individuals and play a constructive role in society. We achieve this by involving young people through their formative years in a non-formal educational process, using the Scout method that makes each individual the principle agent in their own development as a self-reliant, supportive, responsible and committed person, and assisting them to establish a value system based on social, personal and spiritual principles as expressed through the Scout promise and law. Our fun, adventurous, outdoor activities are enjoyable, and community based, encourage a learning by doing approach to enable our youth members to take responsible risks, reach new heights, and develop leadership and teamwork skills whilst providing skills and friendships for life. Accredited training is provided to Leaders to support the Scout program. Income to deliver the Scout program is generated by membership fees, fundraising, government grants and investment income.

His investment is a significant step towards bolstering our commitment to our members' health and safety. Visual learning through dedicated health and safety videos offers a dynamic and easily digestible way for men to understand potential hazards and proper equipment operation. These videos will clearly demonstrate step-by-step procedures, highlight critical safety features, and visually reinforce best practices, catering to different learning styles more effectively than verbal instructions alone. The Shed will also have the ability to address the mental well-being of our members by presenting and discussing mental health videos. This proactive approach to health and safety education will contribute to a more confident and secure environment within the shed, minimizing the risk of accidents and promoting a culture of health and safety.	09-05-2025	1500	A non-significant non-pecuniary interest *	The St George Mens Shed is an independent non-for-profit association open to all men. My colleague, Geoff Broadbent, and I founded the first team in 2020. Some previous team members are now studying Mechatronics at UNSW. Our current team has an average age of 11 and participated in the National Competition in their first year (2024). Each team we have mentored apply their STEM skills combined with critical thinking to build a robot, and compete in an exciting, mission-based robotics game. They also develop skills such as teamwork, inclusion, research, presentation, problem-solving and coding.
