(iii) A cumulative capacity of more than 16,660 new dwellings will be created by a combination of the subject Planning Proposal and LMR Policy, which is likely to exacerbate the infrastructure demands arising from the unplanned population growth generated by the LMR Policy. (iv) The LMR Policy is better aligned with the principles of Transit-Oriented Development by concentrating new housing in areas serviced by existing train stations and town centres. (v) Council has several master plans underway that will facilitate future housing growth accompanied by the required local infrastructure, and (vi) There are no current or future budget allocations to complete the additional studies as required by the Gateway Determination Conditions.	<b>05 Nov 2025 4:21pm Oste, Luke - Target Date Revision</b> Target date changed from 03 November 2025 to 19 December 2025 - To enable confirmation of the withdrawal from DPHI. <b>09 Dec 2025 4:54pm Oste, Luke</b> The Planning Proposal has been formally withdrawn.
